

# Because patients trust your decision

Reliable, high-quality syringes for MEDRAD® Injection Systems

**medRAD**®  
Injection Systems

# Exceptional design exclusively for your MEDRAD injectors. Quality and precision backed by Bayer.

Bayer disposables are skillfully engineered and rigorously tested to provide exceptional quality products designed to optimize your workflow and minimize downtime.

## When choosing contrast and saline syringes, you need to consider:

### Manufacturing Process

Our syringes are produced at our facilities in the United States. Bayer's manufacturing process and rigorous quality inspection processes ensure optimal syringe quality.

### Aligned Injector Performance

Bayer syringes are designed for and tested with the MEDRAD injectors. Precise manufacturing specifications ensure optimal performance. Use of incompatible syringes may result in poor or inaccurate fluid delivery.

### Biocompatibility

If syringes are made from non-biocompatible material then harmful substances can leach into the saline or contrast agent.

### Material Quality

Specific, medical grade materials are selected via a strict vendor qualification process to ensure optimal injector performance and patient care.

# Our Quality Delivers Reliability

Only a validated syringe from a trusted supplier like Bayer can give you the peace of mind you need, and that your patients have come to expect.

- ✓ **100% inspection for particulates**  
At our US manufacturing facilities we are inspecting each syringe barrel before it is shipped to further reduce patient risk and provide an additional layer of safety.
- ✓ **Dependable system performance**  
Since we design and test our syringes as part of a holistic, inter-related system, we can only ensure fluid delivery performance with a Bayer syringe.
- ✓ **Biocompatibility safety is confirmed**  
Bayer conducts analytical chemistry studies on finished products to ensure that our syringes fully meet medical biocompatibility requirements.
- ✓ **Robust packaging evaluation**  
We evaluate our syringes sterile barrier systems and packaging capabilities in house to ensure that they meet strict Bayer standards, not just the industry requirements.

## Because your team trusts your decision and there is much more at stake

### A malfunctioning syringe ...

- ✗ costs time and money resulting from the need to rescan and reinject patients.
- ✗ costs potential revenue due to reduced patient throughput as a result of injector downtime.
- ✗ could result in costly repairs to the injector head which may not be covered under your warranty or service agreement.

# MEDRAD® CT Injection System Syringes

Our quality system delivers the reliability and safety that you, your patients and your team deserve and demand. Please contact your Representative for more information.

MEDRAD® Stellant FLEX CT Injection System Syringes

## MEDRAD® Stellant FLEX CT Injection System Syringe Kits

MEDRAD® Stellant FLEX Dual	MEDRAD® Stellant FLEX Single
FLEXD-150-SPK	FLEXS-150-SPK
FLEXD-150-SCS	FLEXS-150-QFT
FLEXD-150-QFT	FLEXS-200-SPK
FLEXD-200-SPK	FLEXS-200-QFT
FLEXD-200-SCS	
FLEXD-200-QFT	

## MEDRAD® Stellant CT Injection System Syringe Kits

MEDRAD® Stellant Dual	MEDRAD® Stellant Single
SDS-CTP-SPK	SSS-CTP-SPK
SDS-CTP-SCS	SSS-CTP-QFT
SDS-CTP-QFT	

MEDRAD® Stellant CT Injection System Syringes

# MEDRAD® MR Injection System Syringes

When you decide on a Bayer MR injection system, you can rest assured you are offering your patients and your team a high-quality and trustworthy solution.

MEDRAD® MRXperion MR Injection System Syringes

MEDRAD® Spectris Solaris EP MR Injection System Syringes

## MEDRAD® MR Injection System Syringe Kits

MEDRAD® MRXperion	MEDRAD® Spectris Solaris EP	MEDRAD® Spectris Solaris
XP 65/115VS	SSQK 65/115VS	SQK 65VS

# MEDRAD® CV Injection System Syringes

## MEDRAD® CV Injection System Syringe Kits

MEDRAD® Mark 7 Arterion	MEDRAD® Mark V ProVis
ART 700 SYR	150-FT-Q
TAG 150 SYR**	200-FT-Q

\*\* MEDRAD® Twist & Go Disposable Syringe is only compatible with MEDRAD® Twist & Go HPCTs and vice versa.

MEDRAD® Mark 7 Arterion Injection System Syringes

MEDRAD® Mark V ProVis Injection System Syringes
